Morrill's Rochester Interview Stirs Up Kansans.

Kansas may not be for Mckinley after all. It is evident that the deal has been made to deliver the delega-tion to the Ohio governor, but the questien now is can it be consum-

If Kansas votes in the next National republican convention for Reed, Morton, Harrison or Allison, Governor McKinley can charge it up to the stupidity of his fool friends. Chief among these is Governor Morrill.

Nothing has happened for many weeks which has so wrought up the politicians. Particularly is this true of the politicians who are not on the inside with the present state administration.

It is safe to say that fifty prominent republicans of the state have clipped the Rochester dispatch from the State All that such great democrats as Wat-

Lincoln, Neb., August 16.—Congressman Hunter; of Bowling Green, Ky, recently addressed a letter to Governor Holcomb, in which he requested the governor to assist in raising a fund in Nebraska, "to aid the election of a republican governor in Kentacky and thus break the solid south." Governor Holcomb, who is a populist, replied that it would please him very much to witness a breaking up of the solid south, but that he would up of the solid south, but that he would regret to see the people of Dixie throw off the yoke of Cleveland democracy only to assume the bonds of such an organization as the republican party. The governor adds: "Your letter was doubtless addressed to me because the news of the partial redemption of Nebraska from republican misrule had not yet reached the headquarters of the republican executive committee of Kentucky, therefore I return the com-munication as you would doubtless not desire to have it given publicity."
